PREFACE

The Statistical Office in Kraków presents you the elaboration entitled "Tourism in Małopolskie voivodship in 2011". It is the tenth edition of the title in the present administrative division.

The main goal of this publication is to provide receivers with the major data on tourism in Małopolskie voivodship, collected by public statistics. Prevailing part of the publication consists of tables elaborated on the basis of the CSO survey conducted on forms KT-1, presenting state, structure and occupancy in 2011 of collective tourist accommodation establishments as well as private ones possessing not less than 10 bed places. These data have been run by voivodship, subregions, powiats, and selected information by gminas.

The basic subject matter is supplemented by information coming from:

- the CSO statistical survey concerning the activity of museums and paramuseum institutions (a report K-02),*
- departmental surveys of following organizations: PTTK (the Polish Tourist Country-Lovers' Society), GOPR (the Volunteer Mountain Rescue Service) and TOPR (the Volunteer Tatra-Mountain Rescue Service),*
- non-statistical sources provided by different institutions.*

The elaboration consists of methodological notes, descriptive part and tabular part.

Methodological notes include sources, methods of surveys as well as major definitions.

The analytical part describes state, structure, occupancy and distribution of collective tourist accommodation establishments. Main information on private tourist accommodation establishments such as private rooms for rent and agrotourism lodgings has been also presented.

The tabular part begins with a review table which includes general data regarding collective tourist accommodation establishments in 2000, 2005, 2010 and 2011. Apart numeric tables describing tourist boarding facilities of Małopolska there are also data concerning:

- the activity of PTTK, GOPR, TOPR, WOPR (the Volunteer Water Rescue Service),*
- rafting on the Dunajec and Poprad rivers,*
- tourism in national parks,*
- so-called cultural tourism within the confines of the activity of museums.*

Presenting this publication, I express my gratitude to all institutions for provided information, which enriched its content and improved its information value.

*Director
of the Statistical Office in Kraków*

Krzysztof Jakóbik, Ph.D.

OBJAŚNIENIA ZNAKÓW UMOWNYCH SYMBOLS

| | |
|-----------------------|--|
| Kreska (—) | — zjawisko nie wystąpiło. <i>magnitude zero.</i> |
| Znak × | — wypełnienie pozycji, ze względu na układ tablicy jest niemożliwe lub niecelowe. <i>not applicable due to the layout of a table.</i> |
| Znak # | — oznacza, że dane nie mogą być publikowane ze względu na konieczność zachowania tajemnicy statystycznej w rozumieniu ustawy o statystyce publicznej. <i>data may not be published due to the necessity of maintaining statistical confidentiality in accordance with the Law on Public Statistics.</i> |
| Znak * | — oznacza, że dane zostały zmienione, z stosunku do już opublikowanych. <i>data revised.</i> |
| „W tym” „Of which” | — oznacza, że nie podaje się wszystkich składników sumy. <i>indicates that not all elements of the sum are given.</i> |

1. METHODOLOGICAL NOTES

1.1. SOURCE AND SCOPE OF DATA

TOURIST ACCOMMODATION FACILITIES

Information regarding state and occupancy of tourist accommodation facilities in 2011 come from regular statistical surveys conducted by the Central Statistical Office.

Until 2009 the survey was conducted on forms called "Report on occupancy of a tourist accommodation facility" marked with symbols KT-1 (monthly report, excluding July) and KT-1a (report for July).

In 2010 the subject scope of the survey of boarding facilities was broadened — apart from collective accommodation establishments, monthly reports KT-1 ("Report on occupancy of a tourist accommodation facility") included private tourist accommodation (private rooms for rent and agrotourism lodgings). The report is prepared obligatory by entities possessing 10 and more bed places.

Due to introduced changes, a report KT-1a was liquidated and additionally, it was introduced a yearly representative survey of private rooms for rent and agrotourism lodgings possessing less than 10 bed places — the KT-2 questionnaire ("Utilization of tourist accommodation facility").

Only information from KT-1 report are used in this publication.

MUSEUMS

Information regarding museums comes from regular, annual survey conducted by the Central Statistical Office on a form K-02 ("Report on the activity of museum and paramuseum institution").

NON-STATISTICAL SOURCES OF INFORMATION

Data on tourism in national parks were compiled on the basis of information of the Ministry of Environment.

We used information provided directly by institutions such as:

- the Volunteer Mountain Rescue Service,*
- the Polish Tourist Country-Lovers' Society,*
- P.P.H.U "Centrum" Ltd. in Nowy Sącz,*
- the Polish Association of Pieniny Rafts-men on the Dunajec river in Sromowce Niżne,*
- the Volunteer Tatra-Mountain Rescue Service.*

Data regarding the activity of the Volunteer Water Rescue Service are based on information at website <http://www.wopr.pl>

1.2. MAIN DEFINITIONS

Visitors are participants of tourism. This category refers to **tourists** (i.e. visitors who occupied individual or collective accommodation establishments within the given location for at least one night) and **one-day visitors (not accommodated)**¹.

A **tourist** is a person travelling to place outside his/her usual environment for a period no longer than 12 consecutive months, whose main purpose of trip is other than the exercise of an activity remunerated from within the place visited as well as accommodated in collective or private accommodation establishments in the place visited for at least one night.

Collective tourist accommodation establishments are defined as facilities, which offer to travellers overnight stay in rooms and the number of offered places must be greater than a strict minimum for needs of one family. All places in a facility must be subordinate to common management on commercial rules, even if the establishment does not have a profit-making character.

Hotel facilities include: hotels, motels, boarding houses and similar establishments.

Other facilities include excursion hostels, shelters, youth hostels, school youth hostels, holiday centres, holiday youth centres, training recreational centres, creative arts centres, complexes of tourist cottages, camping sites, tent camp sites, hostels, health establishments, other tourist accommodation facilities.

In the survey the following definitions of particular tourist accommodation facilities have been adopted:

Hotel – a hospitality facility located most often in the urban areas, with at least 10 rooms, most of which are one-person or two-person rooms, providing a wide range of services for clients staying at the establishment. Every hotel must render catering services. Depending on the facility furnishing and the range of the services being rendered, five categories are attributed: the highest – 5 stars, the lowest – 1 star.

Motel – a hotel type complex located by road communication routes, which, besides the provision of hotel services, is also adopted to the provision of car services and has a car park. A motel has to have at least 10 rooms, most of beds in single-bed and double-bed rooms. Each motel has to provide catering services. Depending on the equipment in the building and the scope of services rendered, five categories of motels are distinguished: top – 5 stars, lowest – 1 star.

Boarding house – a hotel establishment which provides hotel services, offers 3 meals a day and has at least 7 rooms. It has to provide catering services. Depending on the equipment in the building and the scope of services rendered, five categories of boarding houses are distinguished: top – 5 stars, lowest – 1 star.

Similar establishment – a lodging place divided into rooms and managed by one board, rendering specified services, including cleaning of rooms, bedding and washing of sanitary equipment, at least on a daily basis, (e.g., a building meeting the requirement for a hotel, motel or lodging house that has not obtained a rating).

¹ Methodology of the European Union in the field of tourism statistics, CSO, Department of Living Conditions, Warsaw 1998.

Excursion hostel – an establishment located in the built-up area or in the vicinity of buildings, with at least 30 available accommodations, adopted to self-service of the clients, and offering a minimal scope of services associated with the client stay. Each excursion hostel must have at least one catering establishment. Depending on the equipment in the building and the scope of services rendered, three categories of excursion hotels are distinguished: top – cat. I, lowest – cat. III.

Shelter – an establishment located outside built-up areas, near tourist trails, offering a minimal scope of services associated with the client stay. A shelter has at least one catering establishment. The notion “shelter” does not encompass youth shelters.

Youth shelter – an establishment projected for individual and group tourism, adapted to self-service of the clients. A youth shelter is an establishment located in a freestanding building or a designated part of a building. Depending on the equipment in the building and the scope of services rendered, three categories of excursion hotels are distinguished: top – cat. I, lowest – cat. III.

School youth hostels – an educational establishment where interests and talents can be developed as well as different kinds of rest and free time can be organized.

Holiday centre – an accommodation establishment (or a set of establishments) designed and adapted to provide exclusively or mainly services connected with holidays.

Holiday youth centre – an accommodation establishment (or a set of establishments) designed and adapted to provide exclusively or mainly services connected with holiday camps.

Training-recreational centre – an accommodation establishment (or a set of establishments) designed and permanently adapted to hold courses, conferences, trainings and conventions etc. It can also be adapted to provide holiday services.

Creative arts centre – an establishment, which assures adequate conditions for creative work and recreation of artists, also used as a holiday centre (mainly by their families).

Complex of tourist cottages – tourist cottage is a building without a cellar, with no more than four rooms, adapted to provide hotel services. Tourist cottages can form complexes of tourist cottages and be organizationally included in other accommodation establishments. In the group “Complex of tourist cottages” camping places may also be included.

Camping site – an area, usually wooded, guarded, lighted, with 24-hour reception service, equipped with facilities (sanitary, catering, recreational) which enable the tourists to stay the night in tents, caravans as well as to prepare meals and park motor vehicles. Depending on the equipment in the building and the scope of services rendered, four categories of excursion hotels are distinguished: top – 4 stars, lowest – 1 star.

Tent camp site – a place sectioned off in wooded area, non-guarded, marked and provisionally fenced, which enables the tourists to stay the night in tents. There are drinking water drawing points, necessary sanitary equipment and recreational area in the tent camp site.

Weekend and holiday accommodation establishment – a complex of establishments and facilities located not far away from the urban agglomeration, in the direct neighbourhood of areas having environmental values for recreation, in zones serviced by public transport. An establishment is equipped according to needs of rest and recreation of short duration. It can serve simultaneously a considerable number of persons with different predilections. Boarding facilities included in the establishment may be used for holiday needs.

Hostel – an accommodation establishment, which varies in standard from hotel establishments mainly by the number of places in rooms, bunk beds and cooperative use of equipment and rooms for guests (e.g. common kitchen/bathroom). Hostels are characteristic of renting single beds, not whole rooms. Hostel rooms are usually dorms (multi-person rooms), as well as individual rooms: 1-, 2- and 3-person.

Health establishment – an establishment providing health care services, located in the area of a health resort and using its natural resources when providing health care services.

Other not classified establishments – establishments, which function as tourist accommodation establishments, in the period of not being fully used according to their own purpose. These include among others dormitories, halls of residence for students, workers' hotels, etc. Since 2009 weekend and holiday accommodation establishment have been included here.

Private rooms for rent as well as agrotourism lodgings are included into **individual tourist accommodation establishments**.

Private rooms for rent – kind of individual accommodation establishment, which consists of furnished rooms and premises (excluding agrotourism lodgings) in dwellings, houses and other residential buildings owned by natural or legal persons (excluding farmers), rented out to tourists for overnight stays for a charge.

Agrotourism lodging – kind of individual accommodation establishment, which consists of rooms and residential buildings as well as adjusted outbuildings (after adaptation) in individual farms (agricultural, stud, horticultural or fishing), owned by farmers and rented out to tourists for overnight stays for a charge.

Until 2004, the establishments not meeting the category requirements for any particular kind of establishments were included in "Other not classified establishments" group.

The subgroup "Other hotel establishments" was established within the group "Hotels and similar establishments" in 2004 and the subgroup – "School youth hostel" within the group "Other collective tourist accommodation establishments".

Since 2009 on the KT form "Hostels" have been separated, included before in the group "Other not classified establishments". Since this year "Weekend and holiday accommodation establishments" have been included in "Other not classified establishments" group.

Catering establishments in collective tourist accommodation establishments include all catering facilities and outlets located on the premises of a given tourist accommodation establishment regardless the ownership and accessibility (generally accessible, for guests only). Catering facilities also include fry houses, drink bars, ice cream parlours and snack-bars (of which offering breakfasts).

The following solutions were adopted in the survey on the boarding facilities:

- *data concerning the number of accommodation places and establishments covers all establishments open on 31 July and establishments closed on 31 July, but open on other days of the surveyed month. The maximum number of places has been accepted for them.*
- *the number of days of establishment activity does not include breaks between periods, caused by repairs, disinfection, etc.,*
- *an active establishment is understood as an establishment which was accessible to tourists, at least in part (regardless of the actual occupancy), during the surveyed period,*
- *the establishment occupancy rate – presented in percentage – results from the comparison of actually provided accommodations with the nominal number of accommodations (total accommodations prepared for tourists on each activity day of the establishment), and for hotels, motels, boarding houses and other hotel establishments additionally from the comparison of actually rented rooms and the nominal number of rooms (total rooms prepared on each activity day of the establishment),*
- *the accommodated is the number of persons (tourists), who began their stay in an establishment in a given month (i.e. who checked in); this means that the persons staying in the establishment at the turn of two months are only included in the survey once, which means that they will only be listed for one month (i.e., at the time of registration),*
- *number of overnight stays is the product of persons and the number of days (nights) of their stay,*
- *number of rented rooms in hotels, motels, boarding houses and other hotel establishments is the total of rooms rented in each day of the establishment's activity, regardless of the number of persons accommodated in these rooms.*

Tourist trails are understood as routes (primarily hiking) which are marked up on a given area due to their landscape values (while taking into consideration the safety conditions of tourists and the environmental protection regulations), and are marked with conventional symbols allowing for tracing the right way – recommended or obligatory. Lengths of tourist trails include these, which were marked and are in the care of PTTK divisions (the Polish Tourist Country-Lovers' Society) and these which are out of records of PTTK.

Cultural tourism include activities of visitors connected with culture as well as supply of products offered to culture-minded visitors. Visiting exhibitions, museums, taking part in artistic events is defined as cultural "activity". This activity is a part of "cultural tourism".

1.3. OTHER NOTES

- Names “Małopolskie voivodship” and “Małopolska” are used interchangeably.
- On 1 January 2011 by a decree of the Council of Ministers dated 27 July 2010 regarding establishment, arrangement of borders and names of gminas as well as seats of their authorities, arrangement of borders of some cities and the bestowal of the city status to localities (Journal of Laws from 2010, No 138, item 929) in proszowicki powiat from the area of gmina Nowe Brzesko borders of the city Nowe Brzesko were arranged. In consequence, urban-rural gmina Nowe Brzesko was created (Journal of Laws from 2010, No 257, item 1727).
- Table 22 contains gminas in which there were collective tourist accommodation facilities.
- Actual number of population as of 30 June 2011 as well as information on the area of gminas as of 1 January 2011 were used in calculations characterising the intensity of tourist traffic.
- Due to the electronic method of data processing, in some cases sums of components can differ from the amount given in the item “total”.
- Some data concerning 2010 were changed in relation to those published in the previous edition.

Administrative division of Małopolskie voivodship by powiats and gminas
As of 31 XII 2011

2. RESULTS OF SURVEYS – SYNTHESIS

2.1. Collective tourist accommodation establishments

2.1.1. Tourism in Małopolska against a background of the country and other voivodships

The Małopolskie voivodship neighbours the Śląskie, the Świętokrzyskie and the Podkarpackie voivodships and its southern border is the border of the country with Slovakia. This is the 12th voivodship in the country as regards the area and the 4th – as regards the number of population.

A capital of the voivodship functions as a tourist centre. Kraków attracts tourists with the richness of centuries old monuments of architecture, the highest quality historical souvenirs as well as with cultural, intellectual and economic potential. This is a place visited in large numbers by foreign tourists.

Varied landscape, diversified fauna and flora, clean natural environment, abundance of mineral waters as well as developed health resorts care await tourists in Małopolska. In the Małopolskie voivodship there are 9 health resorts among 44 ones in the country. For protecting nature values there were created National Parks: Babiogórski, Gorczański, Magurski (in the Małopolskie voivodship - a part of the park), Ojcowski, Pieniński and Tatrzański. Moreover, above 200 other objects protecting valuable nature areas were established (nature reserves, landscape parks, protected landscape areas, etc.) as well as 2.2 thous. monuments of nature. Landscape-nature values make Małopolska an area where one can rest, go in for different kind of qualified tourism and sports, both in the summer and in other seasons.

| Wielkopolskie | 1.8 | 1.8 | 2.0 | 14.7 | 16.1 | 26.2 |
| Zachodniopomorskie | 5.3 | 5.3 | 5.6 | 21.6 | 22.5 | 44.6 |

Foreign tourists visited the Małopolskie voivodship in large numbers. A percentage of foreign tourists among people accommodated in collective tourist accommodation establishments in Małopolska was the highest, and a share of overnight stays of foreign tourists shaped at higher level only in the Mazowieckie voivodship. Over 1/5 foreign tourists in Poland was accommodated in boarding facilities in the Małopolskie voivodship. As high was the share of overnight stays of foreign tourists. The Małopolskie voivodship occupied the 2nd place in the country as regards tourist traffic (after the Mazowieckie voivodship regarding people accommodated, and after the Zachodniopomorskie - in case of overnight stays).

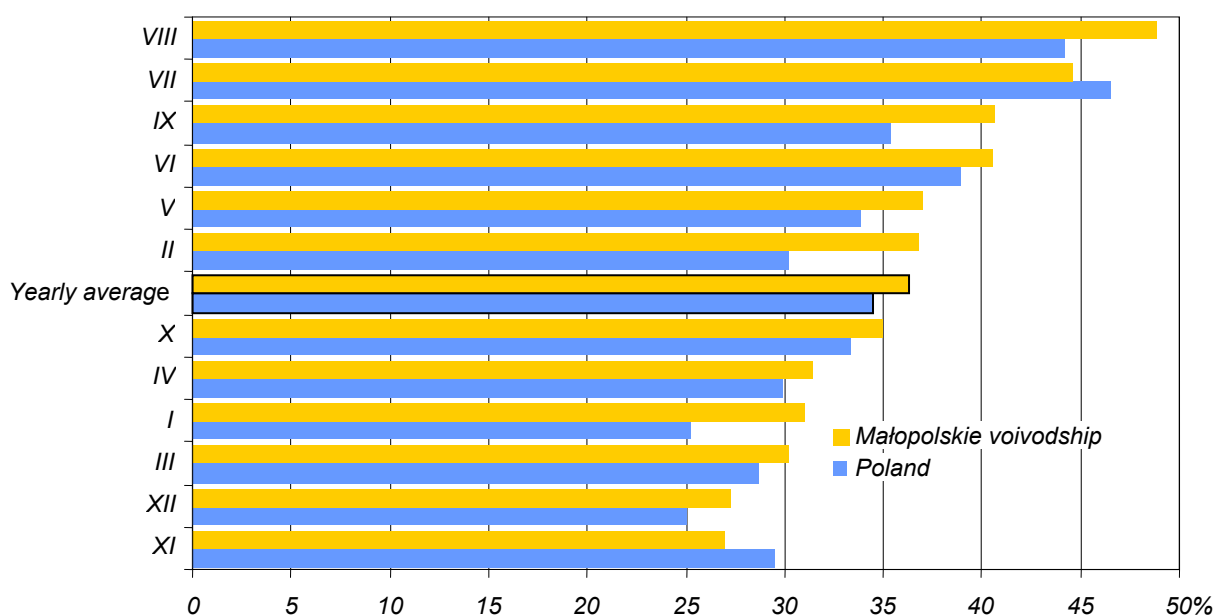

In 2011 the increase of the number of people accommodated in collective tourist accommodation establishments – amounting in Małopolska to 9.2% – in comparison with the previous year was the highest among the obtained in other voivodships and higher by 4.2 percentage points than the average in the country. The increase of the number of overnight stays (by 5.3%) was higher than the country average by 2.9 percentage points. Higher level of increase was recorded only in the Kujawsko-pomorskie voivodship (by 0.3 percentage point).

**GRAPH 1. STRUCTURE OF TOURISTS ACCOMMODATED AND OVERNIGHT STAYS
IN COLLECTIVE TOURIST ACCOMMODATION ESTABLISHMENTS
IN MAŁOPOLSKIE VOIVODSHIP AND IN THE COUNTRY BY MONTHS IN 2011**

Occupancy rate of bed places in collective tourist accommodation establishments in the Małopolskie voivodship was higher by 1.8 percentage point than the country-wide level (4th place after the voivodships: Zachodniopomorskie, Kujawsko-pomorskie and Mazowieckie).

| Other non-classified | 12.7 | 10.3 | 12.0 | 11.5 | 75.6 | 93.1 |

In collective tourist accommodation establishments there were 73.3 thous. bed places prepared for guests – more by 3.4 thous. (by 4.8%) than as of the end of July 2010. In hotel facilities the number of places increased by 3.4 thous. whereas in other facilities their number was lower by 0.1 thous. Year in, year out the share of places in hotel facilities augmented and in the end of July 2011 it was higher than the year before by 2.5 percentage points. In 2011 for the first time in hotel facilities there were more than half of total bed places in collective tourist accommodation establishments in the voivodship. Like in the previous years, hotels offered the most bed places for tourists – 29.5 thous., i.e., more by 3.2 thous. (by 12.2%) in relation to the state as of the last year.

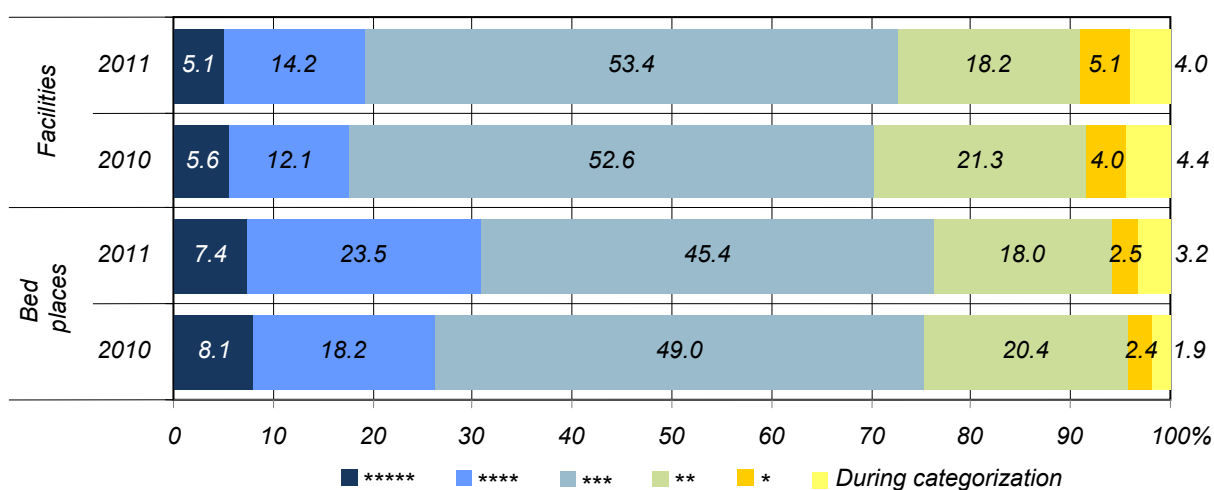

TABLE IV. INDICES OF BED PLACES IN COLLECTIVE TOURIST ACCOMMODATION
ESTABLISHMENTS
As of 31 VII

| YEARS | Total | Hotel facilities | Other facilities | Total | Hotel facilities | Other facilities |
|------------|-----------------|------------------|------------------|---------------------|------------------|------------------|
| | year 2000 = 100 | | | previous year = 100 | | |
| 2001 | 97.6 | 98.6 | 97.2 | 97.6 | 98.6 | 97.2 |
| 2002 | 95.9 | 102.4 | 93.3 | 98.3 | 103.8 | 96.1 |
| 2003 | 99.5 | 107.2 | 96.5 | 103.8 | 104.7 | 103.3 |
| 2004 | 99.8 | 119.8 | 91.8 | 100.3 | 111.8 | 95.2 |
| 2005 | 94.1 | 111.7 | 87.1 | 94.3 | 93.2 | 94.8 |
| 2006 | 95.9 | 123.4 | 85.1 | 102.0 | 110.5 | 97.7 |
| 2007 | 98.1 | 138.9 | 81.8 | 102.2 | 112.6 | 96.2 |
| 2008 | 105.2 | 155.9 | 85.1 | 107.3 | 112.2 | 104.0 |
| 2009 | 105.2 | 166.3 | 81.0 | 100.0 | 106.7 | 95.2 |
| 2010 | 107.0 | 181.4 | 77.5 | 101.7 | 109.1 | 95.6 |
| 2011 | 112.1 | 199.8 | 77.3 | 104.8 | 110.1 | 99.9 |

At the end of July 2011 there were 65.7 thous. yearlong bed places, that is 89.6% of all bed places in collective tourist accommodation establishments (share by 2.2 percentage points higher than as of the end of July 2010). Comparing to the state as of the last year there were more yearlong bed places by 4.6 thous., i.e., by 7.5%.

A collective tourist accommodation establishment numbered 83.3 places on average and it was bigger than the year before by 3.3 places. An average number of bed places per 1 hotel facility augmented by 2.8, and per 1 other facility – by 3.3. An average number of rooms in hotels amounted – like the year before – to 51 rooms per 1 facility. Per 1 motel there were on average 20 rooms, and per 1 boarding house – 24.

GRAPH 3. STRUCTURE OF HOTELS BY CATEGORIES OF FACILITIES
As of 31 VII

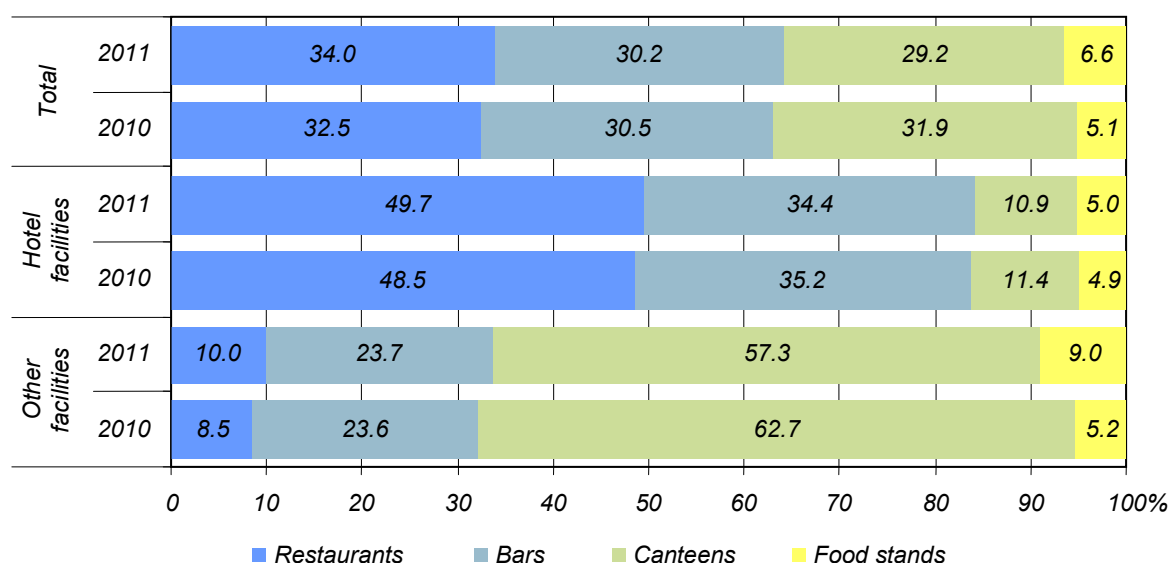

In the end of July 2011 in collective tourist accommodation establishments 335 restaurants, 297 bars, 288 canteens as well as 65 food stands conducted activity. Majority of restaurants (88.4%) and bars (69.0%) was located in hotel facilities. On the other hand, most canteens (77.4%) and food stands (53.8%) were in other facilities. On average 112 catering establishments (142 in hotel facilities, and in other facilities – 85) fell per 100 collective tourist accommodation establishments.

GRAPH 5. TOURISTS ACCOMMODATED AND OVERNIGHT STAYS IN COLLECTIVE TOURIST ACCOMMODATION ESTABLISHMENTS BY MONTHS IN 2011

Average stay of guests in collective tourist accommodation establishments amounted to 2.7 days. Foreign tourists were accommodated longer than yearly average in holiday months (July – 3.1 days and August – 3.0 days) as well as in February (3.3 days) and in January (2.9 days). On the other hand, the stay of tourists was the shortest (on average 2.4 days) in: May, October and November. Domestic tourists stayed in a facility on average 2.8 days (3.0 days in 2010), and foreign ones – 2.3 days (the year before – 2.4 days).

**GRAPH 6. OCCUPANCY RATE OF BED PLACES
IN COLLECTIVE TOURIST ACCOMMODATION ESTABLISHMENTS
BY TYPE OF FACILITIES**

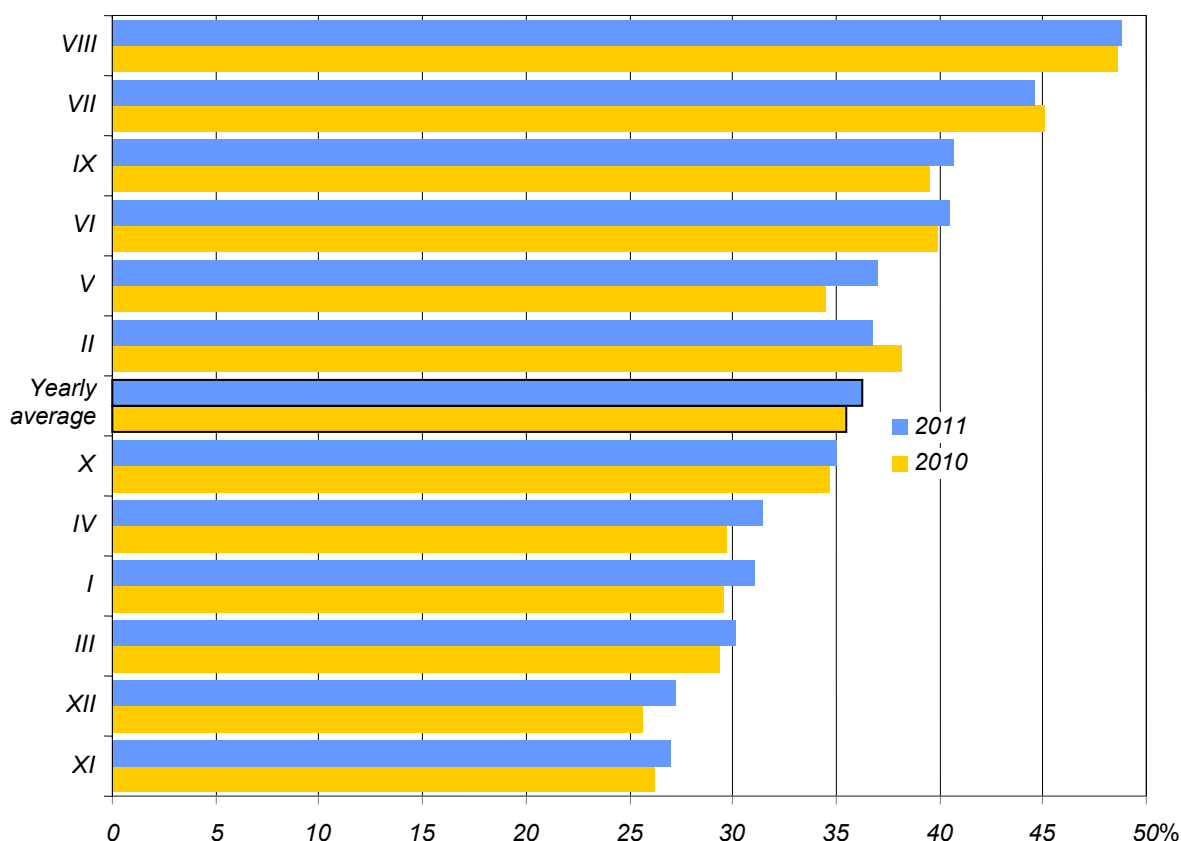

Note. Facilities have been sorted by decreasing occupancy rate of bed places in 2011.

Occupancy rate of bed places in collective tourist accommodation establishments shaped at the level of 36.3% (increase by 0.8 percentage point). Average occupancy rate of bed places in hotel facilities was higher than the year before (by 1.7 percentage point), however in other facilities it dropped (by 0.4 percentage point). Traditionally, places in health establishments were the most occupied.

Occupancy rate of bed places in collective tourist accommodation establishments diminished in February (by 1.4 percentage point) and in July (by 0.4 percentage point). In other months the occupancy rate of bed places increased (in comparison to the year 2010), and the most in May – by 2.5 percentage points. In hotel facilities the occupancy rate of bed places decreased only in February (by 0.8 percentage point); in other months it was higher than in 2010 (the biggest difference in April – by 3.3 percentage points). In other facilities the occupancy rate of bed places shaped above the level from the previous year in 5 months.

GRAPH 7. OCCUPANCY RATE OF BED PLACES
IN COLLECTIVE TOURIST ACCOMMODATION ESTABLISHMENTS
BY MONTHS

Note. Months have been sorted by decreasing occupancy rate of bed places in 2011.

In 2011 the occupancy rate of rooms in hotel facilities in 2011 amounted to 45.4%, what means an increase by 3.3 percentage points in relation to the level in 2010. Occupancy rate of rooms augmented in all types of hotel facilities, and the most (by 7.1 percentage points) – in motels. Occupancy rate of rooms in hotels amounted to 47.7% (by 3.5 percentage points more than in 2010).

2.1.4. Foreign tourists

There were 943.3 thous. foreign tourist among persons accommodated in collective tourist accommodation establishments in the Małopolskie voivodship. Their number augmented by 47.2 thous., i.e., by 5.3% in comparison to the year 2010. In hotel facilities there were more foreign guests by 37.2 thous. (by 4.7%), of which in hotels more by 22.5 thous. (by 3.0%), and in other hotel facilities – by 14.4 thous. (by 44.4%). In facilities grouped as “other facilities” there were accommodated more by 10.0 thous. (by 9.1%) foreign tourists than in the previous year. The highest indices were recorded in hostels (an increase by 6.7 thous., i.e., by 15.2%).

TABLE VIII. INDICES OF FOREIGN TOURISTS ACCOMMODATED IN COLLECTIVE TOURIST ACCOMMODATION ESTABLISHMENTS

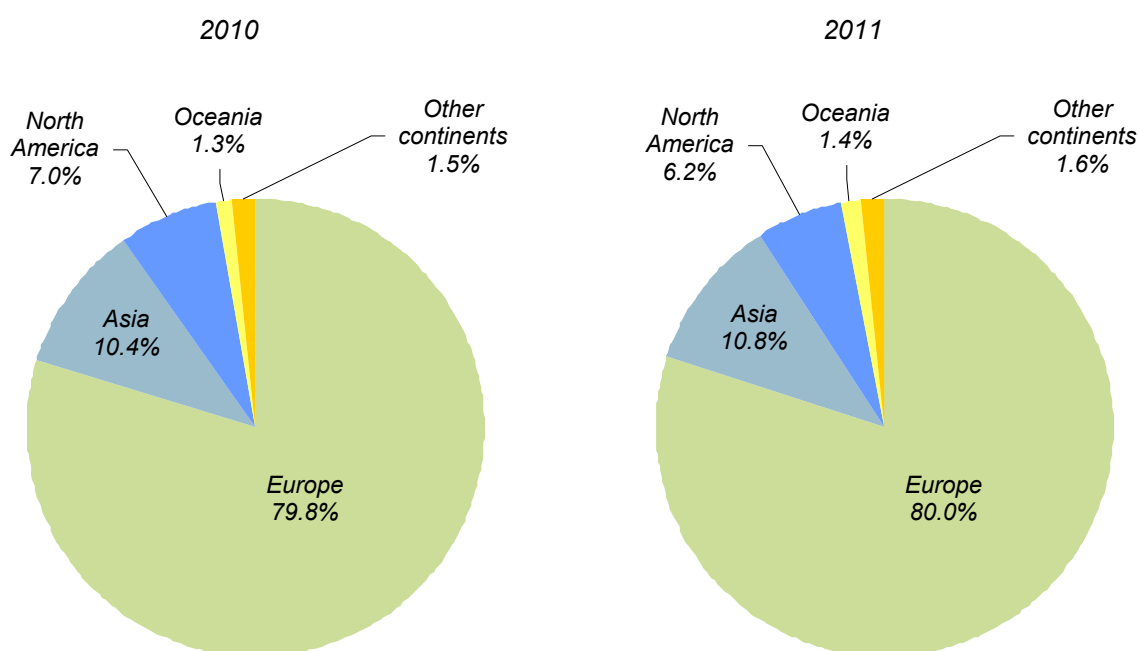

| YEARS | Total | Hotel facilities | Other facilities | Total | Hotel facilities | Other facilities |
|------------|-----------------|------------------|------------------|---------------------|------------------|------------------|
| | year 2000 = 100 | | | previous year = 100 | | |
| 2001 | 100.5 | 97.5 | 111.9 | 100.5 | 97.5 | 111.9 |
| 2002 | 104.1 | 106.6 | 94.5 | 103.6 | 109.4 | 84.5 |
| 2003 | 109.2 | 111.7 | 99.6 | 104.9 | 104.8 | 105.4 |
| 2004 | 143.1 | 152.1 | 108.6 | 131.0 | 136.2 | 109.1 |
| 2005 | 175.4 | 188.9 | 123.7 | 122.6 | 124.2 | 113.9 |
| 2006 | 184.4 | 197.4 | 134.6 | 105.1 | 104.5 | 108.8 |
| 2007 | 193.1 | 210.1 | 128.3 | 104.7 | 106.4 | 95.3 |
| 2008 | 163.4 | 178.3 | 106.9 | 84.6 | 84.8 | 83.3 |
| 2009 | 159.8 | 175.9 | 98.4 | 97.8 | 98.7 | 92.1 |
| 2010 | 176.7 | 195.6 | 104.4 | 110.6 | 111.2 | 106.1 |
| 2011 | 186.0 | 204.9 | 113.9 | 105.3 | 104.7 | 109.1 |

Traditionally, most foreign tourists chose hotels as place for overnight stay (762.6 thous., i.e., 80.8%). Among foreign guests 43.9% was accommodated in three-star hotels and 32.1% - in four-star hotels. In total 120.0 thous. (12.7%) foreign tourists were accommodated in facilities grouped as “other facilities”. Hostels were the most popular facilities among them. They accommodated 50.5 thous. (5.3%) tourists whose place of permanent residence was other country than Poland.

Foreign tourists accounted for 30.1% of total number of tourists accommodated in collective tourist accommodation establishments in Małopolska. Their share decreased by 1.1 percentage point in relation to the level from 2010. The share of foreign tourists in hotel facilities amounted to 37.1% (40.1% in 2010), and in other facilities – 13.1% (increase by 1.0 percentage point). The percentage of foreign tourists in hotels diminished in relation to the level from 2010 (by 3.8 percentage points) and amounted to 39.9% on average, whereas in five-star hotels it accounted for 60.9% (decrease by 2.9 percentage points), in four-star hotels – 45.6% (less by 3.2 percentage points), and in 3-star ones – 38.0% (decrease by 5.8%). In the group of other facilities the biggest was the percentage of foreign tourists on camping sites (48.4%, i.e., by 7.0 percentage points less than in 2010) as well as in hostels (45.1%; increase of share by 3.0 percentage points).

Among foreign tourists who stayed in Małopolska, there were 754.3 thous. residents of Europe – by 39.3 thous. (by 5.5%) more than in 2010. The number of visitors from Asia amounted to 101.8 thous. and it was higher by 8.4 thous. (by 8.9%), from Oceania – 13.1 thous. (increase by 1.6 thous., i.e. by 13.7%), from South and Central America – 9.7 thous. (increase by 1.9 thous., i.e., by 24.3%), and from Africa – 2.0 thous. (more by 0.3 thous., i.e., by 15.1%). On the other hand the number of tourists from North America decreased and amounted to 59.1 thous. Stateless persons and people for whom the place of permanent residence is unknown constituted a group of 3.3 thous. persons.

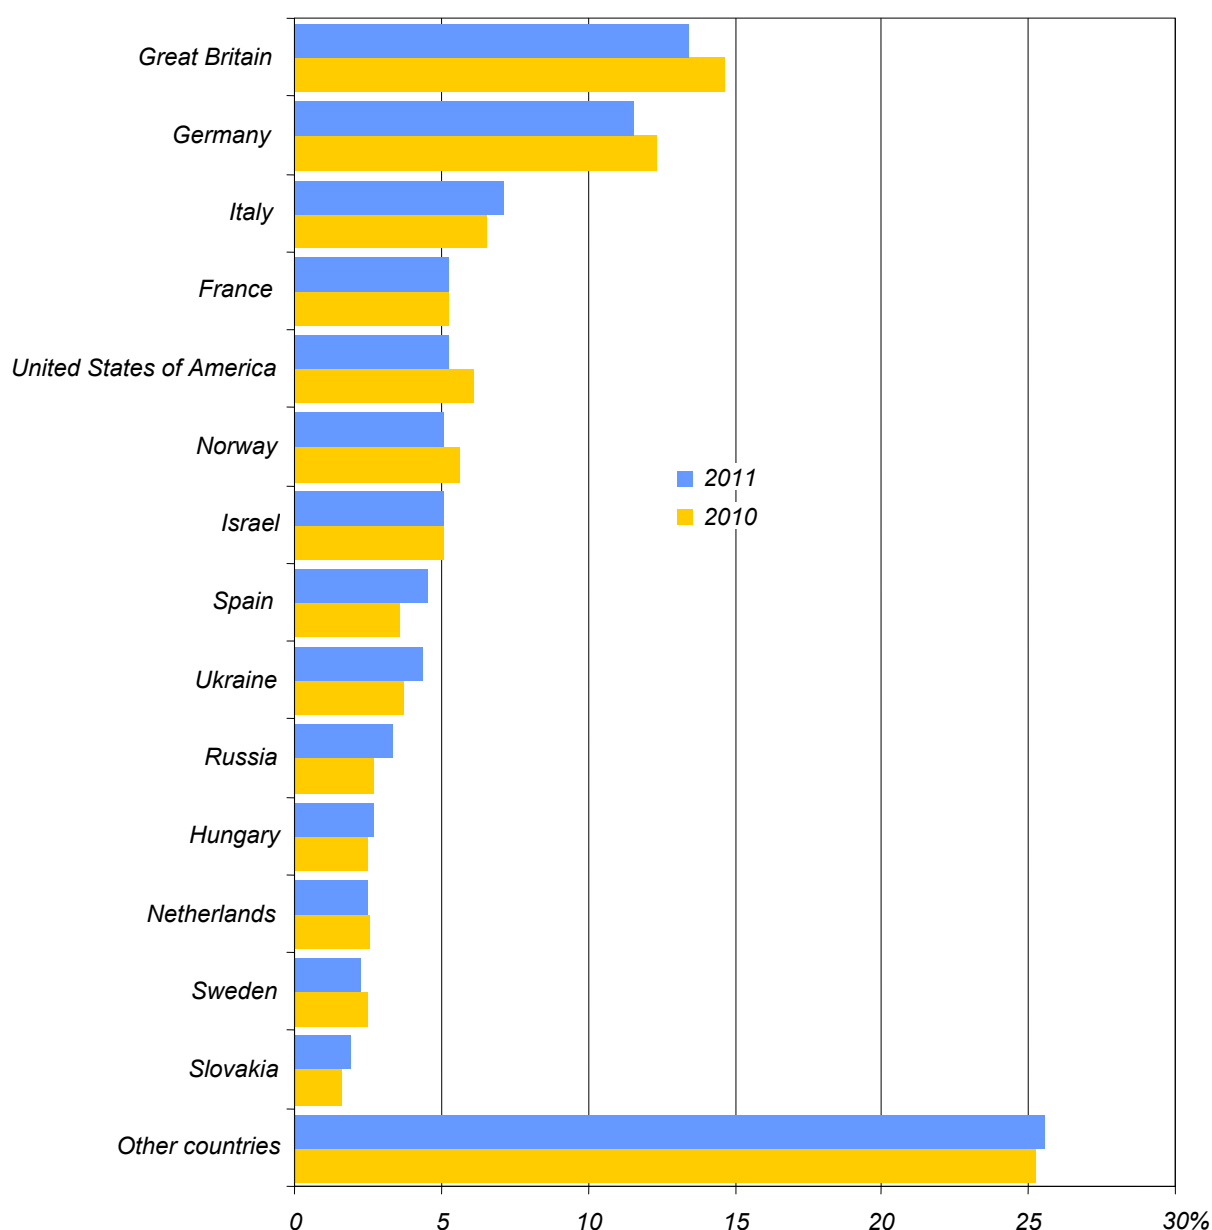

GRAPH 8. STRUCTURE OF FOREIGN TOURISTS ACCOMMODATED
IN COLLECTIVE TOURIST ACCOMMODATION ESTABLISHMENTS
BY CONTINENTS OF PERMANENT RESIDENCE

Analysing the number of tourists as regards country of permanent residence, there was recorded the highest increase – in relation to the level in the previous year – of the number of visitors from Spain (by 10.9 thous., i.e., by 33.9%) and from Italy (by 8.5 thous., i.e., by 14.5%), and subsequently from Ukraine (by 7.8 thous., i.e., by 23.4%) and Russia (by 7.3 thous., i.e., by 30.5%). However, the most decreased the number of tourists coming from the United States (by 4.9 thous., i.e., by 8.9%), from Great Britain (by 4.6 thous., i.e., by 3.5%), from Japan (by 3.0 thous., i.e., by 20.3%) and Norway (by 2.6 thous., i.e., by 5.1%). Less people than in 2010 came also from: Ireland, Germany, Sweden and Austria (drop within 1.9 thous. – 1.0 thous. persons).

Differences of the number of tourists in relations to the previous year did not influence considerably the structure of tourists by particular countries of arrival. In 2011 among foreign tourists visitors from Great Britain and Germany still constituted the biggest percentage, although their shares diminished (by 1.2 and 0.7 percentage point respectively).

**GRAPH 9. STRUCTURE OF FOREIGN TOURISTS ACCOMMODATED
IN COLLECTIVE TOURIST ACCOMMODATION ESTABLISHMENTS
BY COUNTRIES OF PERMANENT RESIDENCE**

Foreign tourists spent 2175.0 thous. nights, i.e., more by 39.7 thous. in relation to 2010. Relative increase of overnight stays amounted to 1.9% and it was lower by 3.4 percentage points than the increase of number of tourists accommodated, what means, that foreign tourists stayed in Małopolska for a shorter period than the year before. An average stay of foreign tourist in a facility amounted to 2.3 days (2.4 days in 2010). The most nights were spent – like in case of tourists accommodated – by visitors of Great Britain (14.7%), Germany (12.0%) as well as Italy (7.2%).

2.1.5. Tourism in Małopolskie voivodship in a territorial breakdown

Kraków occupies a special place in a territorial differentiation of tourism in Małopolska. In the capital of the voivodship (at the end of July 2011) 221 collective tourist accommodation establishments were recorded, which possessed 27.1 thous. bed places in total. The boarding facilities of Kraków in relation to the previous year augmented by 6 establishments (by 2.4 thous. bed places). In total number of facilities there were 129 hotels with aggregate capacity of 17.8 thous. bed places (8.5 thous. rooms), what accounted for 65.9% of places in collective tourist accommodation establishments in Kraków.

TABLE IX. COLLECTIVE TOURIST ACCOMMODATION ESTABLISHMENTS BY POWIATS
As of 31 VII

| P O W I A T S | Facilities | | Bed places | | Number of bed places per facility | |
|---------------------------|------------|-------|------------|-------|--------------------------------------|-------|
| | in percent | | | | | |
| | 2010 | 2011 | 2010 | 2011 | 2010 | 2011 |
| VOIVODSHIP | 100.0 | 100.0 | 100.0 | 100.0 | 80.0 | 83.3 |
| POWIATS | | | | | | |
| Bocheński | 1.8 | 2.1 | 1.8 | 1.9 | 80.9 | 79.6 |
| Brzeski | 1.0 | 1.1 | 0.7 | 0.7 | 52.0 | 49.7 |
| Chrzanowski | 0.6 | 0.9 | 0.2 | 0.3 | 32.0 | 27.5 |
| Dąbrowski | 0.2 | 0.2 | 0.1 | 0.1 | 30.0 | 28.0 |
| Gorlicki | 2.7 | 2.1 | 2.0 | 1.7 | 58.3 | 70.3 |
| Krakowski | 2.9 | 3.1 | 1.9 | 2.0 | 53.6 | 53.4 |
| Limanowski | 2.6 | 2.6 | 2.1 | 1.9 | 63.3 | 59.3 |
| Miechowski | 0.1 | 0.2 | 0.1 | 0.3 | 40.0 | 120.5 |
| Myślenicki | 1.6 | 1.6 | 1.5 | 1.7 | 76.1 | 88.4 |
| Nowosądecki | 16.2 | 15.3 | 17.0 | 15.6 | 84.0 | 84.7 |
| Nowotarski | 12.5 | 12.5 | 9.5 | 9.2 | 61.1 | 61.6 |
| Olkuski | 1.5 | 1.0 | 0.7 | 0.5 | 40.6 | 39.7 |
| Oświęcimski | 0.9 | 1.0 | 0.9 | 1.1 | 75.4 | 87.0 |
| Proszowicki | 0.3 | 0.5 | 0.2 | 0.3 | 55.3 | 46.0 |
| Suski | 4.0 | 3.6 | 2.5 | 2.2 | 49.2 | 49.7 |
| Tarnowski | 1.4 | 1.4 | 0.7 | 0.7 | 39.2 | 42.2 |
| Tatrzański | 18.3 | 18.7 | 17.6 | 17.5 | 76.8 | 77.9 |
| Wadowicki | 2.4 | 2.4 | 2.3 | 2.5 | 75.2 | 86.7 |
| Wielicki | 2.1 | 2.5 | 1.3 | 1.4 | 51.1 | 48.3 |
| CITIES WITH POWIAT STATUS | | | | | | |
| Kraków | 24.6 | 25.1 | 35.3 | 36.9 | 114.9 | 122.5 |
| Nowy Sącz | 1.0 | 0.8 | 0.6 | 0.5 | 44.4 | 50.9 |
| Tarnów | 1.3 | 1.3 | 1.0 | 1.0 | 64.1 | 69.8 |

Share of bed places in collective tourist accommodation establishments in Kraków amounted to 36.9% of total bed places in Małopolska. In case of bed places in hotels this percentage constituted 60.5%. There were 10 hotels in Kraków (from 14 in the Małopolskie voivodship) rated with the highest, five-star category possessing 1.0 thous. rooms jointly (1.9 thous. bed places).

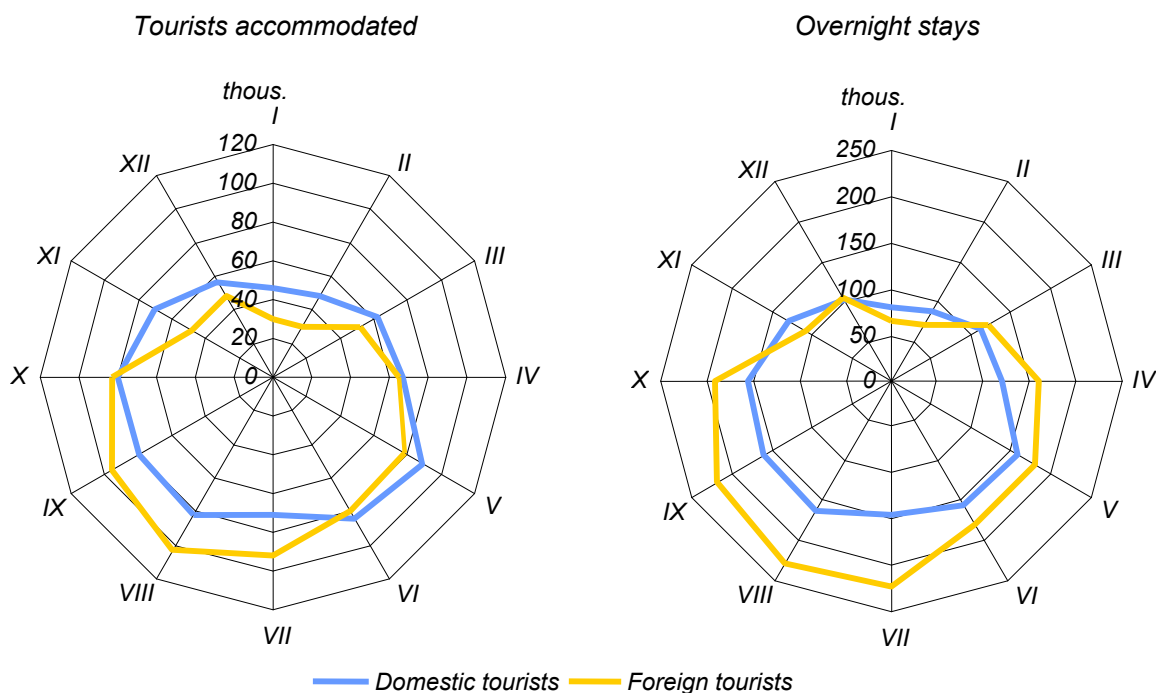

At the end of July 2011 the number of bed places in collective tourist accommodation establishments increased in 14 powiats (excluding Kraków), most of all – in tatrzański (by 0.6 thous.), however in 7 powiats it did not reach the level from the year before. The number of bed places in nowosądecki powiat decreased the most (by 0.5 thous.).

TABLE X. TOURISTS ACCOMMODATED AND OVERNIGHT STAYS IN COLLECTIVE TOURIST ACCOMMODATION ESTABLISHMENTS BY POWIATS

| P O W I A T S | Tourists accommodated | | Overnight stays | | Average stay of tourist in a facility in days | |
|---------------------------|-----------------------|-------|-----------------|-------|---|------|
| | in percent | | | | | |
| | 2010 | 2011 | 2010 | 2011 | 2010 | 2011 |

| Suski | 1.2 | 1.1 | 1.4 | 1.3 | 3.1 | 3.2 |
| Tarnowski | 0.7 | 0.6 | 0.5 | 0.4 | 1.9 | 1.9 |
| Tatrzański | 15.5 | 16.3 | 18.9 | 19.2 | 3.4 | 3.2 |
| Wadowicki | 1.8 | 2.3 | 1.3 | 1.6 | 2.0 | 1.9 |
| Wielicki | 2.1 | 2.3 | 1.0 | 1.2 | 1.4 | 1.4 |
| CITIES WITH POWIAT STATUS | | | | | | |
| Kraków | 52.7 | 52.3 | 39.6 | 40.6 | 2.1 | 2.1 |
| Nowy Sącz | 0.6 | 0.5 | 0.3 | 0.4 | 1.6 | 1.7 |
| Tarnów | 1.5 | 1.4 | 0.9 | 0.9 | 1.6 | 1.7 |

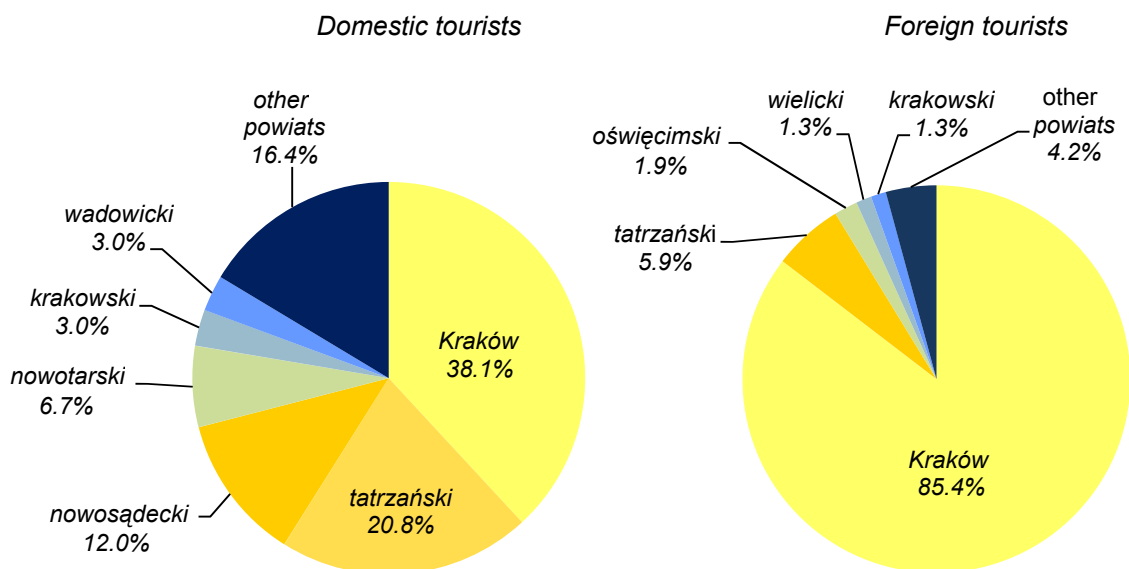

In 2011 there were 1641.3 thous. persons accommodated in collective tourist accommodation establishments in Kraków, among them 805.7 thous. foreign tourists (85.4% of foreign guests of the Małopolskie voivodship). The number of foreign tourists increased by 35.4 thous. (by 4.6%) in relation to the previous year. The percentage of persons whose place of permanent residence was other country than Poland, accounted for 49.1% (drop by 1.8 percentage point in relation to the level from 2010). The number of domestic tourists, amounting to 835.6 thous., was higher than in the previous year by 93.5 thous. (by 12.6%). In 2011 in collective tourist accommodation establishments in Kraków the number of overnight stays amounted to 3407.7 thous. (increase by 252.3 thous., i.e., by 8.0%). More than a half nights (54.2%) has been spent by foreign tourists.

GRAPH 10. TOURISTS ACCOMMODATED AND OVERNIGHT STAYS IN COLLECTIVE TOURIST ACCOMMODATION ESTABLISHMENTS IN KRAKÓW BY MONTHS IN 2011

Increase of the number of persons accommodated in collective tourist accommodation establishments – excluding the capital of the voivodship – was recorded in 14 powiats, and the biggest one in tatrzański powiat (by 64.7 thous.). Less tourists than in the previous year stayed in facilities located in 7 powiats. The deepest fall occurred in gorlicki powiat (by 5.6 thous. persons).

GRAPH 11. STRUCTURE OF TOURISTS ACCOMMODATED IN COLLECTIVE TOURIST ACCOMMODATION ESTABLISHMENTS BY POWIATS IN 2011

An average stay of tourist in a facility varied from 1.4 days in wielicki powiat to 6.2 days in gorlicki powiat. In 4 powiats the occupancy rate of bed places shaped above the voivodship's average – amounting to 36.3%. The most favourable one was recorded in gorlicki powiat (53.5%), and then in powiats: the city of Kraków (41.2%), nowosądecki (40.4%) and tatrzański (36.5%).

2.2. Private tourist accommodation establishments

Tourists could be accommodated also in private tourist accommodation establishments, i.e., private rooms for rent and agrotourism lodgings. A survey covered establishments which possessed at least 10 bed places. At the end of July 2011 in Małopolska 502 such facilities were recorded with total number of 11.9 thous. bed places (yearlong places constituted 71.4%). Among them there were 435 private rooms for rent (10.9 thous. bed places) and 67 agrotourism lodgings (1.0 thous. places).

In these boarding facilities 135.0 thous. tourists were accommodated, whose average stay lasted 3.8 days. The number of overnight stays amounted to 511.7 thous. Occupancy rate of bed places in private accommodation establishments in the voivodship amounted to 15.5% on average.

77.4% of bed places in private rooms for rent and 33.2% in agrotourism lodgings were located in tatrzański powiat. Share of tourists accommodated in private accommodation establishments in tatrzański powiat amounted to 58.7% and overnight stays – 68.3% in Małopolska.

2.3. Tourist ranking of gminas

For creating the tourist ranking of gminas we used only data collected by official statistics on KT-1 forms, i.e., information on the state and occupancy of boarding facilities concerning collective tourist accommodation establishments. It does not cover all aspects related to tourism, but boarding facilities are the main tourist function development measure.

Tourist traffic in collective tourist accommodation establishments occurred in 119 gminas of the Małopolskie voivodship (65.4% of total number of gminas). It means that in more than 1/3 gminas of the voivodship, within survey on the KT-1 form, there were not recorded any collective tourist accommodation establishment, and at the same time persons accommodated.

The ranking of gminas was established on the basis of synthetic rate. Variables should fulfill a condition of completeness, so in further calculations 117 gminas were took into consideration - gminas Mucharz and Tomice have been omitted, in which during the year tourist traffic occurred, but at the end of July 2011 there were not bed places. For each of gminas 6 partial rates (named lately tourist rates), characterizing boarding facilities of collective tourist accommodation establishments have been calculated:

- Defert's tourist function rate — number of bed places per 100 residents,
- boarding facilities density rate — number of bed places per 1 km² of area,
- Schneider's tourist traffic intensity rate — number of tourists accommodated per 100 residents,
- Charvat's tourist traffic intensity rate — number of overnight stays per 100 residents,
- tourist traffic density rate — number of tourists accommodated per 1 km²,
- occupancy rate of bed places — percentage share of the number of overnight stays to nominal number of bed places.

Then we chose by 12 gminas (upper decile) with the highest value of rates, analysed separately. As regards particular rates in total 29 gminas appeared in upper deciles. In 2 gminas (Krynica-Zdrój and Szczawnica) the level of all 6 rates gave the gmina a place in the highest decile group. Also 2 gminas (Zakopane and Bukowina Tatrzańska) reached such level in case of 5 tourist rates. However, there were 12 gminas in this group due to only one accepted measure. Kraków occupied a high position as regards 4 analysed measures, whereas it reached the place in a strict lead in case of tourist traffic density rate (1st place) and boarding facilities density rate (2nd place).

TABLE XI. GMINAS WITH HIGHEST VALUE (UPPER DECILE) OF TOURIST RATES IN 2011

| G M I N A S | Place of gmina by | | | | | |
|---------------------------|--|---|---------------------|-------------------|---------------------------------------|------------------------------------|
| | tourist function rate (Defert's rate) | boarding facilities density rate | Schneider's rate | Charvat's rate | tourist traffic density rate | occupancy rate of bed places |
| Biecz | | | | | | 5 |
| Bochnia city | | 5 | | | 3 | |
| Bukowina Tatrzańska | 8 | 11 | 4 | 7 | 9 | |
| Gródek n. Dunajcem | | | 12 | 12 | | 8 |
| Grybów city | | | | | | 12 |
| Kościelisko | 5 | | 5 | 6 | | |
| Kraków | | 2 | 11 | | 1 | 10 |
| Krynica-Zdrój | 1 | 3 | 2 | 1 | 4 | 6 |
| Łapsze Niżne | 11 | | | | | |
| Łososina Dolna | | | | | | 9 |
| Mszana Dolna city | | 9 | | | | |
| Muszyzna | 4 | 8 | 8 | 5 | | |
| Nowy Targ city | | | | | | 4 |
| Oświęcim city | | 6 | | | 5 | |
| Piwniczna-Zdrój | 7 | 12 | 9 | 8 | | |
| Poronin | 9 | 10 | | 11 | | |
| Rabka-Zdrój | | 7 | | 10 | 12 | |
| Rytro | 10 | | 7 | 9 | | |
| Spytkowice | | | | | | 2 |
| Sucha Beskidzka | | | | | 11 | |
| Szczawnica | 3 | 4 | 3 | 3 | 7 | 11 |
| Tarnów gm. | | | | | | 3 |
| Tarnów city | | | | | 8 | |
| Uście Gorlickie | 6 | | 10 | 4 | | 1 |
| Wieliczka | | | | | 10 | |
| Wielka Wieś | | | 6 | | 6 | |
| Wiśniowa | | | | | | 7 |
| Zakopane | 2 | 1 | 1 | 2 | 2 | |
| Zawoja | 12 | | | | | |

In order to eliminate rates that are strongly correlated with each other a correlation coefficient was determined for particular tourist rates using "each with each" method. Spearman's¹ rank correlation coefficient has been used to determine a force of relation between variables, because distribution of variables is not consistent with normal distribution. Then, two variables with the strongest correlation with other ones have been rejected: tourist traffic intensity rate by Schneider and tourist traffic intensity rate by Charvat.

TABL. XII. INDICES OF SPEARMAN'S RANK CORRELATION OF TOURIST RATES IN 2011

| R A T E S | Tourist function rate by Defert | Boarding facilities density rate | Tourist traffic intensity rate by Schneider | Tourist traffic intensity rate by Charvat | Tourist traffic density rate | Occupancy rate of bed places |
|--|--|---|---|---|---------------------------------------|------------------------------------|
| Tourist function rate by Defert ... | 1.00 | 0.86 | 0.80 | 0.87 | 0.68 | 0.34 |
| Boarding facilities density rate ... | 0.86 | 1.00 | 0.75 | 0.79 | 0.84 | 0.43 |
| Tourist traffic intensity rate by Schneider | 0.80 | 0.75 | 1.00 | 0.96 | 0.91 | 0.66 |
| Tourist traffic intensity rate by Charvat | 0.87 | 0.79 | 0.96 | 1.00 | 0.86 | 0.68 |
| Tourist traffic density rate | 0.68 | 0.84 | 0.91 | 0.86 | 1.00 | 0.68 |
| Occupancy rate of bed places ... | 0.34 | 0.43 | 0.66 | 0.68 | 0.68 | 1.00 |

Thus, for calculating synthetic rate 4 rates were used: tourist function rate by Defert, boarding facilities density rate, tourist traffic density rate as well as occupancy rate of bed places. These rates were assumed stimulants and standardized using the unitarization² method, and received in this way values (within limits from 0 to 1) were treated as partial elements of the sum of synthetic rate. In order to easier use of it arithmetic mean was calculated (division by 4) and multiplied by a fix value (100). A rate obtained in this way varied from 0 to 100.

12 gminas were presented below (1/10 of gminas in which boarding facilities were recorded) in the decreasing order of synthetic tourist function rate. From presented group of gminas, by 3 were located in powiats: nowosądecki, nowotarski and tatrzański, and by 1 - in bocheński and gorlicki powiat; a special gmina was Kraków, the city with powiat status.

¹ Mieczysław Sobczyk, *Statystyka*, edited by PWN, Warsaw 1991, page 213.

² Andrzej Młodak, *Analiza taksonomiczna w statystyce regionalnej*, edited by Difin, Warsaw 2006, page 119.

As regards synthetic rate Zakopane was a definite leader among all gminas. It surpassed Kraków by 22.2 points and Krynica-Zdrój – by 27.5 points. It worth to emphasize that all health resort gminas of the Małopolskie voivodship are in the highest decile group.

In total, gminas of upper decile gathered 73.6% of total number of bed places in the voivodship. These places have been used by 79.7% of tourists accommodated in Małopolska – they spent 83.1% of total number of nights (overnight stays). Mentioned above indices confirmed (observed in many fields of life) Pareto-Lorenz's principle of significant minority: approximately 80% of persons accommodated in collective tourist accommodation establishments and overnight stays in such facilities concentrated in 10% of gminas.

Discussed group of gminas was characterised also by very high share of foreign tourists – in total 92.0% of all foreign tourists in the Małopolskie voivodship spent nights in facilities located on the area of these gminas – however we must remember the prevailing share of Kraków in this number.

TABLE XIII. TOURIST RANKING OF GMINAS (UPPER DECILE) IN 2011

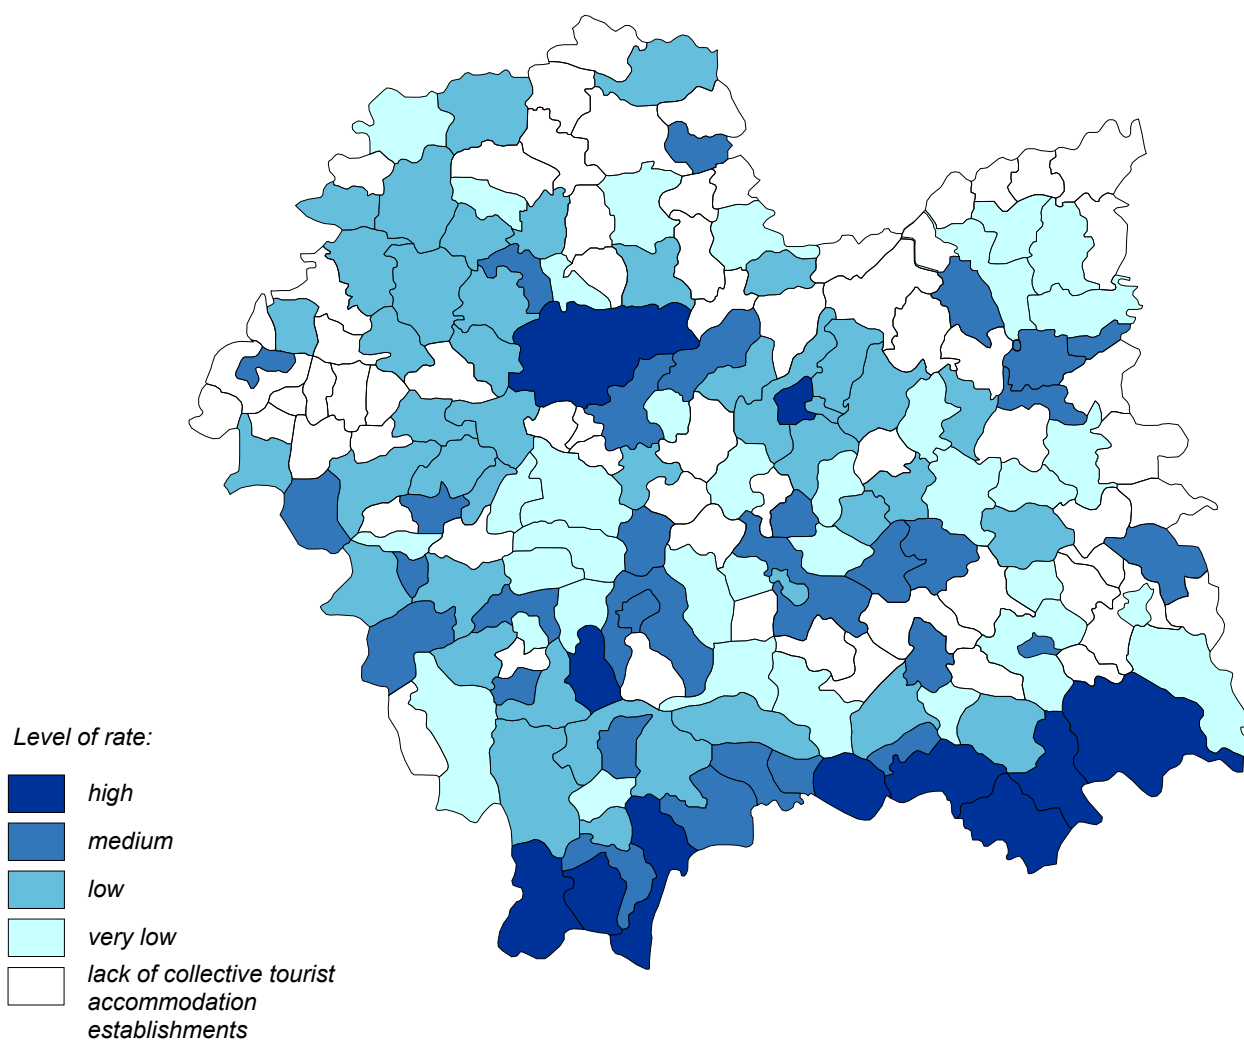

| G M I N A S | Powiat | Value of synthetic rate | Place |
|---------------------------|-------------|-------------------------|-------|
| Zakopane | tatrzański | 85.0 | 1 |
| Kraków | m. Kraków | 62.8 | 2 |
| Krynica-Zdrój | nowosądecki | 57.5 | 3 |
| Szczawnica | nowotarski | 47.7 | 4 |
| Uście Gorlickie | gorlicki | 35.3 | 5 |
| Muszyzna | nowosądecki | 34.2 | 6 |
| Bukowina Tatrzańska | tatrzański | 28.9 | 7 |
| Kościelisko | tatrzański | 25.9 | 8 |
| Bochnia m. | bocheński | 25.1 | 9 |
| Rabka-Zdrój | nowotarski | 24.9 | 10 |
| Piwniczna-Zdrój | nowosądecki | 24.6 | 11 |
| Spytkowice | nowotarski | 23.8 | 12 |

Next, we divided tourist gminas (sorted by decreasing synthetic rate), using 3 averages method on 4 groups of gminas:

- with high level of synthetic tourist function rate,
- with medium level of synthetic tourist function rate,
- with low level of synthetic tourist function rate,
- with very low level of synthetic tourist function rate.

In the group of gminas with the highest level of rate there are 11 gminas (that is less by 1 in comparison with the list of gminas in the highest decile group) with the range of rate from 85.0 to 24.6 points. There are 30 gminas in the group with medium level of synthetic rate (within limits from 23.8 to 13.0 points). In 41 gminas synthetic rate shaped at low level and amounted from 12.7 points to 7.1 points. In remaining 35 gminas tourist function rate was very low (6.9 points and less). Moreover, as mentioned above, in 65 gminas of the Małopolskie voivodship at the end of July 2011 there were not any collective tourist accommodation establishments recorded, for which a KT-1 report has been drawn (on occupancy of a tourist accommodation facility).
